

Barlo owns a 55,000 square foot state-of-the-art sign manufacturing facility in Juarez, Mexico, which allows the manufacture of neon channel letters and cabinet signs at extremely competitive prices.

This facility houses 15 neon stations, with 48,000 square feet allocated to manufacturing and assembly. Packaging and storage facilities are combined in approximately 5000 square feet of dedicated space. The remaining space is allocated for office and conference use.

12 active neon glass bending stations with 2 gas pumping stations and a total capacity for 15 neon workstations.

Logixx Automated, and hand crafted Neon Channel letter capabilities.

BarloMex has two paint booths, the first, a medium-sized updraft booth, the second booth, made by Norris Wiener, is 18 feet tall, 16 feet wide, and 32 feet deep.

Acrylic Polyurethane AKZO-NOBEL Grip Gard system is in place for mixing colors and painted finishes.

Aluminum extrusion sign box fabrication. CNC routed face capability.
